

WELCOME
TO
NITYA SEVA
USA

Helping Children from The Most Severely Disadvantaged Socioeconomic Groups.

- **Nitya Seva USA is a non-profit, tax exempt charity under section 501© (3) of the IRS code. It was established in 2010.**
- *Nitya Seva USA partners with Nitya Seva Germany and Nitya Seva Society with whom we share our goals and mission. Nitya Seva Germany was founded in 1998 and Nitya Seva Society in 1999.*
- **Our Mission is to help children from the most impoverished segment of society to develop to their fullest potential, an opportunity they would not have on their own. Our commitment to the children in our care is long term!**
- *Nitya Seva Society opened its first Children's Home in 2000. It currently operates three Children's Homes in the city of Bhopal, India.*
- **The Homes house around 200 children offering physical security, food security, love and care. Besides these basic needs, Nitya Seva equips them with skills to succeed in life. There is great emphasis on Education. All children attend school. Those with potential are also supported through college.**
- *Nitya Seva also helps the children transition to life as productive members of society when they graduate out of the Nitya Seva system. Some children have already graduated out of the system, are living independently and are gainfully employed.*
- **The cost of this endeavor was \$913 per child per year in the year 2017.**
